### Editorial Review

#### From the Back Cover

'The book is written in a very friendly way, from which students will benefit.'

Paulo Alves, University of Lancaster

A comprehensive and accessible introduction to the subject, *Financial Accounting for Decision Makers* focuses on the ways in which financial statements and information can be used to improve the quality of decision making. By introducing topics gradually and explaining technical terminology in a clear, friendly style, the authors cater both for accounting students, and for those studying entry-level accounting within another field. A practical emphasis throughout the book ensures that the material is always relevant and suitable to the decision makers of the future.

Financial Accounting for Decision Makers offers:

- Interactive 'open-learning' style, ideal for self-study, encourages you to check your progress continually.
- NEW chapter examining supplementary financial reports prepared by businesses.
- Interactive 'open-learning' style, ideal for self-study, encourages you to check your progress continually.
- Fully integrated coverage of International Financial Reporting Standards (IFRS).
- NEW sections dealing with key standards and standard-setting issues.
- Numerous activities and exercises enable you to constantly test your understanding and reinforce learning.
- Updated and expanded chapter on corporate governance outlines the issues and potential problems inherent to the separation of ownership of a company from day-to-day control.
- Colourful and relevant examples from the real world, including company reports and survey data, demonstrate the practical application and value of concepts and techniques learnt.
- Key terms, glossary and bulleted summaries providing excellent revision aids.
