The Artful Recluse: Painting, Poetry, and Politics in 17th-Century China

From Brand: Prestel

The first publication to explore in depth the theme of reclusion in painting and calligraphy within the context of political and social changes in 17th-century China. Reclusion--the act of disengaging from worldly affairs for spiritual and moral cleansing--was a concept deeply associated with ancient Chinese civilization. The theme of reclusion was especially prevalent during the late Ming and early Qing dynasties, a period of unrivaled artistic achievement and historical drama. This beautifully illustrated exhibition catalog invites readers deep into the world of scholar-painters in 17th-century China. Nearly 60 hanging and hand scrolls, albums, and fans--many never seen before in print--reveal how the educated elite expressed their thoughts and ideals through depictions of the landscape, human figures, birds, flowers, fish, and insects. Accompanied by penetrating essays on the subject, these works celebrate the extraordinary skill with which the period's artists communicated their place in a century of crisis.
