Archaeology: A Very Short Introduction (Very Short Introductions) By Paul Bahn

In this revised and updated edition of *Archaeology: A Very Short Introduction*, Paul Bahn presents an engaging introduction and a superb overview of a field that embraces everything from the cave art of Lascaux to the great stone heads of Easter Island. This entertaining introduction reflects the enduring popularity of archaeology--a subject which appeals as a pastime, career, and academic discipline, encompasses the whole globe, and spans some 2.5 million years. From deserts to jungles, from deep caves to mountain tops, from pebble tools to satellite photographs, from excavation to abstract theory, archaeology interacts with nearly every other discipline in its attempts to reconstruct the past. In this new edition, Bahn brings his text completely up to date, including information about recent discoveries and interpretations in the field, and highlighting the impact of developments such as the potential use of DNA and stable isotopes in teeth, as well the effect technology and science are having on archaeological exploration, from nuclear imaging to GPS. Bahn also shows how archaeologists have contributed to some of the most prominent debates of our age, such as the role of climate change, the effects of rises in sea-level, and the possibility of global warming. This edition also includes updated suggestions for further reading.

Editorial Review

Review

Acclaim for the first edition:

"A quite brilliant and level-headed look at the curious world of archaeology."

--Barry Cunliffe, Oxford University, author of *Europe Between the Oceans*

About the Author

Paul Bahn is a freelance writer, translator, and broadcaster in archaeology. He is a Fellow of the Society of Antiquaries magazine, vice-president of the Easter Island foundation, and corresponding member of the Archaeological Institute of America.

Users Review

From reader reviews:

Martina Barton:

The reason why? Because this Archaeology: A Very Short Introduction (Very Short Introductions) is an unordinary book that the inside of the publication waiting for you to snap that but latter it will shock you with the secret the idea inside. Reading this book adjacent to it was fantastic author who write the book in such amazing way makes the content interior easier to understand, entertaining technique but still convey the meaning totally. So , it is good for you because of not hesitating having this any more or you going to regret it. This excellent book will give you a lot of positive aspects than the other book get such as help improving your ability and your critical thinking approach. So , still want to postpone having that book? If I were being you I will go to the e-book store hurriedly.

Patricia Jones:

Would you one of the book lovers? If so, do you ever feeling doubt when you find yourself in the book store? Try and pick one book that you find out the inside because don't judge book by its include may doesn't work this is difficult job because you are scared that the inside maybe not because fantastic as in the outside search likes. Maybe you answer may be Archaeology: A Very Short Introduction (Very Short Introductions) why because the excellent cover that make you consider in regards to the content will not disappoint you actually. The inside or content is actually fantastic as the outside or even cover. Your reading 6th sense will directly direct you to pick up this book.

Lisa Langlais:

On this era which is the greater person or who has ability in doing something more are more treasured than other. Do you want to become among it? It is just simple method to have that. What you should do is just spending your time very little but quite enough to enjoy a look at some books. One of several books in the top list in your reading list is definitely Archaeology: A Very Short Introduction (Very Short Introductions). This book that is certainly qualified as The Hungry Hillside can get you closer in turning into precious person. By looking upwards and review this reserve you can get many advantages.

Carey Gilliam:

Reading a guide make you to get more knowledge from this. You can take knowledge and information from the book. Book is written or printed or descriptive from each source in which filled update of news. Within this modern era like right now, many ways to get information are available for an individual. From media social like newspaper, magazines, science reserve, encyclopedia, reference book, fresh and comic. You can add your understanding by that book. Ready to spend your spare time to spread out your book? Or just looking for the Archaeology: A Very Short Introduction (Very Short Introductions) when you essential it?
