Java How To Program (late objects) (10th Edition)

By Paul Deitel, Harvey Deitel

Java How To Program (late objects) (10th Edition) By Paul Deitel, Harvey Deitel

Java How to Program (Late Objects), **Tenth Edition** *is intended for use in the Java programming course. It also serves as a useful reference and self-study tutorial to Java programming.*

The Deitels' groundbreaking *How to Program* series offers unparalleled breadth and depth of object-oriented programming concepts and intermediate-level topics for further study. *Java How to Program (Late Objects),* **Tenth Edition,** teaches programming by presenting the concepts in the context of full working programs.

The **Late Objects Version** delays coverage of class development, first presenting control structures, methods and arrays material in a non-object-oriented, procedural programming context.

Teaching and Learning Experience
This program presents a better teaching and learning experience—for you and your students.

- **Teach Programming with the Deitels' Signature Live Code Approach:** Java language features are introduced with thousands of lines of code in hundreds of complete working programs.
- **Use a Late Objects Approach:** The **Late Objects Version** begins with a rich treatment of procedural programming, including two full chapters on control statements and 200+ exercises.
- **Keep Your Course Current:** This edition can be used with Java SE 7 or Java SE 8, and is up-to-date with the latest technologies and advancements.
- **Facilitate Learning with Outstanding Applied Pedagogy:** Making a Difference exercise sets, projects, and hundreds of valuable programming tips help students apply concepts.
- **Support Instructors and Students:** Student and instructor resources are available to expand on the topics presented in the text.

Editorial Review

About the Author

Paul J. Deitel, CEO and Chief Technical Officer of Deitel & Associates, Inc., is a graduate of MIT's Sloan School of Management, where he studied Information Technology. He holds the Java Certified Programmer and Java Certified Developer certifications, and has been designated by Sun Microsystems as a Java Champion. Through Deitel & Associates, Inc., he has delivered Java, C, C++, C# and Visual Basic courses to industry clients, including IBM, Sun Microsystems, Dell, Lucent Technologies, Fidelity, NASA at the Kennedy Space Center, the National Severe Storm Laboratory, White Sands Missile Range, Rogue Wave Software, Boeing, Stratus, Cambridge Technology Partners, Open Environment Corporation, One Wave, Hyperion Software, Adra Systems, Entergy, CableData Systems, Nortel Networks, Puma, iRobot, Invensys and many more. He has also lectured on Java and C++ for the Boston Chapter of the Association for Computing Machinery. He and his father, Dr. Harvey M. Deitel, are the world's best-selling programming language textbook authors.

Dr. Harvey M. Deitel, Chairman and Chief Strategy Officer of Deitel & Associates, Inc., has 45 years of academic and industry experience in the computer field. Dr. Deitel earned B.S. and M.S. degrees from the MIT and a Ph.D. from Boston University. He has 20 years of college teaching experience, including earning tenure and serving as the Chairman of the Computer Science Department at Boston College before founding Deitel & Associates, Inc., with his son, Paul J. Deitel. He and Paul are the co-authors of several dozen books and multimedia packages and they are writing many more. With translations published in Japanese, German, Russian, Spanish, Traditional Chinese, Simplified Chinese, Korean, French, Polish, Italian, Portuguese, Greek, Urdu and Turkish, the Deitels' texts have earned international recognition. Dr. Deitel has delivered hundreds of professional seminars to major corporations, academic institutions, government organizations and the military.

Users Review

From reader reviews:

Paul McKinney:

What do you regarding book? It is not important along with you? Or just adding material if you want something to explain what your own problem? How about your extra time? Or are you busy particular person? If you don't have spare time to accomplish others business, it is make one feel bored faster. And you have spare time? What did you do? Everyone has many questions above. The doctor has to answer that question mainly because just their can do in which. It said that about e-book. Book is familiar on every person. Yes, it is right. Because start from on guardería until university need this Java How To Program (late objects) (10th Edition) to read.
