**The Tech Contracts Handbook: Cloud Computing Agreements, Software Licenses, and Other IT Contracts for Lawyers and Businesspeople** By David W. Tollen

*The Tech Contracts Handbook* is a practical, user-friendly reference manual and training guide on cloud computing agreements, software licenses, and other IT contracts. It's a clause-by-clause "how to" resource, covering the issues at stake and offering negotiation tips and sample contract language.

The *Handbook* is for both lawyers and businesspeople -- including contract managers, procurement officers, in-house and outside counsel, salespeople, and anyone else responsible for getting IT deals done. Perhaps, most important, it uses clear, simple English, like a good contract.

Topics covered include:

- Software-as-a-service (SaaS) subscriptions
- Warranties and service level agreements (SLA's)
- Data security and privacy
- Indemnities
- Disaster recovery (DR)
- Non-competes
- Limitations of liability
- Clickwraps
- Open source software
- Nondisclosure agreements (NDA's) and confidentiality
- Technology escrow
- Copyright and other intellectual property (IP) licensing
- Internet and e-commerce contracts
- And much more ...
