NMR of Proteins and Nucleic Acids By Kurt Wüthrich

An introduction to underlying principles and experimental procedures using the newest strategies and techniques for obtaining extensive NMR assignments in biopolymers based on NMR data and the primary structure. Includes an extensive and non-mathematical discussion of 2D NMR and Nuclear Overhauser effects; resonance assignments and structure determination in proteins; and resonance assignments and structure determination in nucleic acids. Enables specialists and non-specialists to evaluate the potentialities and limitations of the method.

Editorial Review

From the Publisher

An introduction to underlying principles and experimental procedures using the newest strategies and techniques for obtaining extensive NMR assignments in biopolymers based on NMR data and the primary structure. Includes an extensive and non-mathematical discussion of 2D NMR and Nuclear Overhauser effects; resonance assignments and structure determination in proteins; and resonance assignments and structure determination in nucleic acids. Enables specialists and non-specialists to evaluate the potentialities and limitations of the method.

About the Author

Kurt Wüthrich was a co-recipient of the 2003 Nobel Prize in Chemistry for his work on nuclear magnetic resonance technology and its application to protein analysis.

Users Review

From reader reviews:

Nathan Wilson:

The book NMR of Proteins and Nucleic Acids can give more knowledge and information about everything you want. Exactly why must we leave a good thing like a book NMR of Proteins and Nucleic Acids? A number of you have a different opinion about reserve. But one aim which book can give many information for us. It is absolutely correct. Right now, try to closer together with your book. Knowledge or facts that you take for that, you could give for each other; you may share all of these. Book NMR of Proteins and Nucleic Acids has simple shape but the truth is know: it has great and massive function for you. You can search the enormous world by start and read a publication. So it is very wonderful.

Tammara Dejesus:

In this 21st century, people become competitive in every single way. By being competitive today, people have to do something to make all of them survive, being in the middle of typically the crowded place and notice by means of surrounding. One thing that at times many people have underestimated this for a while is reading. Yep, by reading a book your ability to survive increase then having chance to stay than other is high. To suit your needs who want to start reading some sort of book, we give you that NMR of Proteins and Nucleic Acids book as starter and daily reading e-book. Why, because this book is more than just a book.

Nicole Montes:

Precisely why? Because this NMR of Proteins and Nucleic Acids is an ordinary book that the inside of the reserve waiting for you to snap that but latter it will shock you with the secret it inside. Reading this book close to it was fantastic author who also wrote the book in such remarkable way makes the content on the inside easier to understand, entertaining technique but still convey the meaning fully. So, it is good for you for not hesitating having this any more or you going to regret it. This amazing book will give you a lot of

advantages than the other book have got such as help improving your proficiency and your critical thinking approach. So , still want to delay having that book? If I ended up you I will go to the publication store hurriedly.

Belinda Bridges:

Some people said that they feel weary when they reading a guide. They are directly felt the item when they get a half portions of the book. You can choose the book NMR of Proteins and Nucleic Acids to make your current reading is interesting. Your skill of reading talent is developing when you similar to reading. Try to choose basic book to make you enjoy to read it and mingle the opinion about book and reading through especially. It is to be first opinion for you to like to open up a book and read it. Beside that the publication NMR of Proteins and Nucleic Acids can to be your friend when you're experience alone and confuse using what must you're doing of these time.
