**Wireshark Network Analysis (Second Edition): The Official Wireshark Certified Network Analyst Study Guide** By Laura Chappell

**[Note: This Second Edition is also available in Kindle format!]**

Wireshark is the world's most popular network analyzer tool with over 500,000 downloads per month. This book provides insider tips and tricks to spot performance issues fast - no more finger pointing because the packets never lie! From "Death by Database" to "Troubleshooting Time Syncing," 49 case studies offer insight into performance and security situations solved with Wireshark.

Learn to customize Wireshark for faster and more accurate analysis of your network traffic. Build graphs to identify and expose issues such as packet loss, receiver congestion, slow server response, network queuing and more.

This book is the Official Study Guide for the Wireshark Certified Network Analyst program.

This Second Edition includes an introduction to IPv6, ICMPv6 and DHCPv6 analysis, updated Wireshark functionality and new trace files. Refer to [wiresharkbook.com](http://wiresharkbook.com) for book supplements, index, table of contents and more.

### **Editorial Review**

#### **From the Author**

This revision includes the features added as of Wireshark 1.8 including annotation, filter expression buttons, multi-adapter capture and more. You can head over to the wiresharkbook website to view the What's New document for a complete listing of enhancements in this Second Edition.

We began the update process in July 2011, but Wireshark 1.8 was looming and, the more I played with the development versions (1.7.x), the more evident it became that this book had to be held until 1.8 released. It's an amazingly hot version of Wireshark and alters the way we analyze traffic.

### **Users Review**

#### **From reader reviews:**

##### **Jesse Linder:**

As people who live in the modest era should be upgrade about what going on or information even knowledge to make all of them keep up with the era that is always change and move forward. Some of you maybe will probably update themselves by studying books. It is a good choice for you personally but the problems coming to you actually is you don't know what type you should start with.
