Editorial Review

About the Author
Dr Rajkumar Buyya is an Associate Professor of Computer Science and Software Engineering and Director of the Grid Computing and Distributed Systems (GRIDS) Laboratory at the University of Melbourne, Australia. He has pioneered the economic paradigm for utility-oriented distributed computing platforms such O16as Grids and Clouds, and served as foundation Chair of the IEEE Technical Committee on Scalable Computing. In recognition of these outstanding contributions, he received '2009 IEEE Medal for Excellence in Scalable Computing'. He has authored over 280 publications, which include best selling textbooks such as Mastering C++ (Tata McGraw-Hill, India, 2009) and edited books such as High Performance Cluster Computing (Prentice Hall, USA, 1999), Content Delivery Networks (Springer, Germany), and Market Oriented Grid and Utility Computing (Wiley Press, USA, 2009). He currently serves as the founding CEO of Manjrasoft Pvt Ltd., developing innovative software technologies for Grid and Cloud computing. Dr Thamarai S Selvi is a Professor and Head of the Department of Information Technology, MIT Campus, Anna University Chennai, India. She is also serving as Director of Centre for Advanced Computing Research and Education (CARE). She received Bharat Jyoti Award from India international Friendship Society in 2001. She has authored several research papers and books including A Textbook on C# (Pearson Education) and Testing your Skills in C (Tata McGraw-Hill). She has over 25 years of teaching experience and over 15 years of R&D experience. Her research interests include Semantic Grids, Trusted Cloud and Grid Computing. Mr Xingchen Chu is a Research Fellow in the Grid Computing and Distributed Systems (GRIDS) Laboratory, Department of Computer Science and Software Engineering at the University of Melbourne, Australia. He has over 9 years of experience with software architecture, design, and development on a variety of platforms, including J2EE and .NET. His R&D interests include enterprise applications and Grid and Cloud computing technologies. Along with Dr Buyya, he received Vice-Chancellor's Knowledge Transfer Award from the University of Melbourne in 2007. Currently, he is involved in supporting the commercialisation of GRIDS Lab's innovations via Manjrasoft.

Users Review

From reader reviews:

Ross Jackson:

Your reading 6th sense will not betray you actually, why because this Object Oriented Programming with Java: Essentials and Applications guide written by well-known writer we are excited for well how to make book which can be understand by anyone who else read the book. Written inside good manner for you, dripping every ideas and producing skill only for eliminate your current hunger then you still uncertainty Object Oriented Programming with Java: Essentials and Applications as good book not merely by the cover but also through the content. This is one book that can break don't evaluate book by its handle, so do you still needing a different sixth sense to pick that!? Oh come on your looking at sixth sense already alerted you so why you have to listening to a different sixth sense.

George Jamison:

That reserve can make you to feel relax. That book Object Oriented Programming with Java: Essentials and

Applications was multi-colored and of course has pictures on there. As we know that book Object Oriented Programming with Java: Essentials and Applications has many kinds or style. Start from kids until adolescents. For example Naruto or Investigation company Conan you can read and think that you are the character on there. Therefore , not at all of book usually are make you bored, any it can make you feel happy, fun and chill out. Try to choose the best book for you personally and try to like reading that will.

Edward White:

What is your hobby? Have you heard in which question when you got college students? We believe that that problem was given by teacher to their students. Many kinds of hobby, Everybody has different hobby. And also you know that little person including reading or as examining become their hobby. You must know that reading is very important and book as to be the thing. Book is important thing to incorporate you knowledge, except your personal teacher or lecturer. You discover good news or update with regards to something by book. Numerous books that can you choose to adopt be your object. One of them is actually Object Oriented Programming with Java: Essentials and Applications.

Jack Morgan:

A lot of people said that they feel bored stiff when they reading a e-book. They are directly felt it when they get a half elements of the book. You can choose the particular book Object Oriented Programming with Java: Essentials and Applications to make your personal reading is interesting. Your skill of reading proficiency is developing when you like reading. Try to choose very simple book to make you enjoy you just read it and mingle the idea about book and reading especially. It is to be initially opinion for you to like to start a book and learn it. Beside that the publication Object Oriented Programming with Java: Essentials and Applications can to be a newly purchased friend when you're really feel alone and confuse with what must you're doing of their time.
