## The Guru Investor: How to Beat the Market Using History's Best Investment Strategies By John P. Reese, Jack M. Forehand

Today's investor is faced with a myriad of investment options and strategies. Whether you are seeking someone to manage your money or are a self-directed investor deciding to tackle the market on your own, the options can be overwhelming.

In an easy-to-read and simple format, this book will dissect the strategies of some of Wall Street's most successful investment gurus and teach readers how to weed through the all of the choices to find a strategy that works for them. The model portfolio system that author John Reese developed turns each strategy into an actionable system, addressing many of the common mistakes that doom individual investors to market underperformance. This book will focus on the principles behind the author's multi-guru approach, showing how investors can combine the proven strategies of these legendary "gurus" into a disciplined investing system that has significantly outperformed the market.

Gurus covered in the book are: Benjamin Graham; John Neff; David Dreman; Warren Buffett; Peter Lynch; Ken Fisher; Martin Zweig; James O'Shaughnessy; Joel Greenblatt; and Joseph Piotroski.

### **Editorial Review**

#### **From the Inside Flap**

Over the past six decades, the U.S. stock market has averaged an annual return of about eleven percent per year. Yet, except for a few renowned Wall Street gurus, the vast majority of investors, both amateur and professional, fail to come anywhere close to those eleven percent average annual gains. Why do most investors fail—and what do those very successful investment gurus have in common? *The Guru Investor* identifies the stock picking methodologies developed by some of history's best and most successful stock market gurus—including Peter Lynch, Warren Buffett, Benjamin Graham, Martin Zweig, John Neff, and others—and shows how you can combine these proven strategies into a disciplined investing system that has been proven to outperform the market.

John Reese breaks down the very different approaches of each of the gurus—encompassing value, growth, and quantitative investing—and lays out their philosophy and achievements, detailing step-by-step the secret formulas they used to beat the market, while explaining why these legendary investors consider certain factors to be so important when analyzing individual stocks.

Reese not only discusses the individual gurus, their strategies, and why they are important, but he also explains how to best use these strategies in the real world, showing how to sift through all of the choices to find a strategy that works for you. The model portfolio system that the author has developed turns each strategy into an actionable system, addressing many of the common mistakes that doom investors to failure. In addition to offering these individual guru-based models, Reese also explains how to combine and implement these approaches into a multi-guru system that will provide you with a comprehensive, practical stock investing strategy with a proven track record. He reveals when you should buy, when you should sell, how many stocks you should own, and much more.

All investors can learn from the thinking, writing, and experience of Wall Street's greatest investors. *The Guru Investor*, and its free companion Web site—[www.guruinvestorbook.com](http://www.guruinvestorbook.com)—will teach you the lessons of these greats and give you all the tools needed to put those lessons to work in your investment strategy.

#### **A detailed look at the successful strategies used by some of the world's best investors**

What can we learn from those rare investors who have consistently generated outstanding returns over the long haul? In an easy-to-read and simple format, *The Guru Investor* dissects strategies from ten of Wall Street's greatest investment "gurus" and shows exactly how to implement those strategies to improve your own long-term investment results.

This book offers a step-by-step guide to the investment methodologies of Warren Buffett, Peter Lynch, Joel Greenblatt, James O'Shaughnessy, David Dreman, John Neff, Benjamin Graham, Ken Fisher, Joseph Piotroski, and Martin Zweig. Based on the model portfolio system that the author has developed, each strategy is turned into an actionable system that systematically addresses many of the common mistakes that hurt individual investors' long-term investment results.

In addition, *The Guru Investor* shows how you can combine the proven strategies of these legendary gurus into a disciplined investing system for building and managing portfolios—including the author's key rules for when to buy, when to hold, and when to sell.
