### Ender in Exile (The Ender Quartet series) By Orson Scott Card

After twenty-three years, Orson Scott Card returns to his acclaimed best-selling series with the first true, direct sequel to the classic *Ender's Game*.

In *Ender's Game*, the world's most gifted children were taken from their families and sent to an elite training school. At Battle School, they learned combat, strategy, and secret intelligence to fight a dangerous war on behalf of those left on Earth. But they also learned some important and less definable lessons about life.

After the life-changing events of those years, these children—now teenagers—must leave the school and readapt to life in the outside world.

Having not seen their families or interacted with other people for years—where do they go now? What can they do?

Ender fought for humanity, but he is now reviled as a ruthless assassin. No longer allowed to live on Earth, he enters into exile. With his sister Valentine, he chooses to leave the only home he's ever known to begin a relativistic—and revelatory—journey beyond the stars.

What happened during the years between *Ender's Game* and *Speaker for the Dead*? What did Ender go through from the ages of 12 through 35? The story of those years has never been told. Taking place 3000 years before Ender finally receives his chance at redemption in *Speaker for the Dead*, this is the long-lost story of Ender.

For twenty-three years, millions of readers have wondered and now they will receive the answers. *Ender in Exile* is **Orson Scott Card**'s moving return to all the action and the adventure, the profound exploration of war and society, and the characters one never forgot.

*On one of these ships, there is a baby that just may share the same special gifts as Ender's old friend Bean...*

At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Earth Unaware, Earth Afire.

### Ender Novellas

A War of Gifts, First Meetings.

**The Authorized Ender Companion:** A complete and in-depth encyclopedia of all the persons, places, things, and events in Orson Scott Card's Ender Universe.

From Publishers Weekly

Set between Card's Hugo and Nebula-winning *Ender's Game* (1985) and *Speaker for the Dead* (1986), this philosophical novel covers familiar events, but puts new emphasis on their ethical ramifications. In the wake of his victory over the alien Formics, 12-year-old military genius Ender Wiggins is hailed as a hero, but governments opposed to the International Fleet, which trained him, intend to portray him as a monster. Ender winds up as titular governor of one of the new human colonies, where he struggles to adapt to civilian life and ponders his role in the deaths of thousands of humans and an entire alien species. His agonized musings aren't always sophisticated but possess a certain gravitas. Fans will find this offering illuminating, and it's also accessible to thoughtful readers new to the series. (Nov.)

From School Library Journal

Adult/High School—Here is Card's answer to all those readers who asked, "What happened to Ender?" between *Ender's Game* (1985) and *Speaker for the Dead* (1986, both Tor), a gap that covers nearly 3000 years. Twelve-year-old Ender Wiggin should be coming home to a hero's welcome after wiping out the dreaded buggers—aliens who have twice defeated humanity in the past—in a fierce space battle. He is

instead proclaimed a dangerous weapon and appointed titular governor of a colony world to keep him as far away from Earth as possible. His beloved sister Valentine joins him on the colony ship but is unable to penetrate the barriers he has erected around himself. Wracked with remorse at his genocide of the buggers, Ender searches for the reason the aliens allowed him to defeat them, knowing the answer will give him direction. As in most great speculative fiction, Card mines the depths of humanity's philosophical and political ideas through Ender's trials and discoveries. *Exile* brings together many drifting story lines from a number of other books in the series, so it's not for the uninitiated. For those who are familiar with Ender and his world, this is a wonderful treat to be devoured whole in a gulp and then returned to later to digest at leisure.—*Charli Osborne, Oxford Public Library, MI*
