### Case Studies in Language Curriculum Design: Concepts and Approaches in Action Around the World (ESL & Applied Linguistics Professional Series)

By John Macalister, I.S.P. Nation

Case studies are a powerful pedagogical tool for illuminating constructs and models in real-life contexts. Covering a wide range of teaching-learning contexts and offering in-depth analyses of ESL/ELT language curriculum design issues, this casebook is distinctive and unique in that each case draws on and is clearly linked to a single model presented in Nation and Macalister's *Language Curriculum Design* ([www.routledge.com/9780415806060](http://www.routledge.com/9780415806060)), giving the book a high degree of coherence. A short commentary by the editors after each case highlights features of note and/or issues arising from it. This is a versatile text, designed to work as a companion to *Language Curriculum Design* (adding meaning and depth to the model presented there by relating it to a range of applications), as a stand-alone text, or as a resource for language teacher trainees, teacher educators, practicing teachers, program administrators, and materials writers in the field.
