### Instrumental Methods of Analysis (Oxford Higher Education) By Sivasankar

*Instrumental Methods of Analysis* is a textbook designed to introduce various analytical and chemical methods, their underlying principles and applications to the undergraduate engineering students of biotechnology and chemical engineering. This book would also be of interest to students who pursue their B. Sc / M. Sc degree programs in biotechnology and chemistry.

The book starts with a discussion on fundamentals of analytical chemistry, followed by data handling and statistical analysis. Wet chemical methods form the third chapter, where all the conventional titrimetric and gravimetric analysis is dealt with. It then moves onto discuss topics such as the microscopy, optical methods, various spectroscopic methods, X-ray methods, chromatographic methods, electrophoresis, and bulk separation methods. The last few chapters discuss electroanalytical methods, thermal, radioanalytical and finally the surface analytical methods.

Illustrated with block diagrams throughout the text, the book provides review questions, and numerical examples in all relevant chapters.

## **Editorial Review**

### About the Author

**Dr B Sivasankar** is a Visiting Professor, Department of Chemistry, College of Engineering Guindy, Anna University, Chennai. He has more than 35 years of active teaching and research experience. He specializes in Analytical and Inorganic Chemistry and has published numerous articles in national and international journals of repute.

A Ph.D in Analytical and Inorganic Chemistry from the University of Madras, Dr Sivasankar has guided numerous research scholars in specialised areas of catalysis and biocatalysis.

## **Users Review**

### **From reader reviews:**

#### **Gary Bloomfield:**

In this 21st millennium, people become competitive in most way. By being competitive at this point, people have do something to make these individuals survives, being in the middle of the crowded place and notice through surrounding. One thing that sometimes many people have underestimated this for a while is reading. Yes, by reading a reserve your ability to survive improve then having chance to endure than other is high. For yourself who want to start reading some sort of book, we give you this kind of Instrumental Methods of Analysis (Oxford Higher Education) book as beginning and daily reading publication. Why, because this book is usually more than just a book.

#### **Roger Bennett:**

Often the book Instrumental Methods of Analysis (Oxford Higher Education) will bring one to the new experience of reading a new book. The author style to clarify the idea is very unique. When you try to find new book to study, this book very appropriate to you. The book Instrumental Methods of Analysis (Oxford Higher Education) is much recommended to you to see. You can also get the e-book from the official web site, so you can more easily to read the book.

#### **Keith Abell:**

Reading a e-book tends to be new life style within this era globalization. With studying you can get a lot of information which will give you benefit in your life. With book everyone in this world can share their idea. Guides can also inspire a lot of people. A lot of author can inspire all their reader with their story or even their experience. Not only the storyplot that share in the textbooks. But also they write about the ability about something that you need case in point. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that you can get now. The authors on earth always try to improve their

expertise in writing, they also doing some study before they write for their book. One of them is this Instrumental Methods of Analysis (Oxford Higher Education).

**David McKenney:**

That publication can make you to feel relax. This book Instrumental Methods of Analysis (Oxford Higher Education) was bright colored and of course has pictures around. As we know that book Instrumental Methods of Analysis (Oxford Higher Education) has many kinds or category. Start from kids until young adults. For example Naruto or Private eye Conan you can read and feel that you are the character on there. Therefore , not at all of book tend to be make you bored, any it can make you feel happy, fun and chill out. Try to choose the best book for you personally and try to like reading this.
