### Editorial Review

From Kirkus Reviews

An inspiring, well-organized exposition of ten principles that appear to offer hope for renewal in an era of government decline. Osborne's *Laboratories of Democracy* (1988) celebrated government innovation at state and local levels; here, the ideas are further developed, with many more examples and a sharper focus. Osborne and Gaebler (the former city manager of Visalia, California) charge that government bureaucracy, created a hundred years ago to combat official corruption, has outlived its usefulness. Since governments are increasingly caught between declining revenues and rising demands for service, the authors call on them to become more "catalytic," "mission-driven," "customer-driven," "anticipatory," "market-oriented," etc. The authors recognize that these terms may have a vaguely threatening ring to many liberals and public employees, but they counter those fears with examples of how the adoption of these principles has resulted in employee empowerment, increased public support, etc. For example, they explain how, when Phoenix forced its trash collectors to compete with private businesses while guaranteeing the collectors' jobs, morale and productivity soared. Most convincing is the way Osborne and Gaebler discuss honestly the most serious potential problems with their proposals--e.g., their refusal to endorse merit pay for individual teachers, which, they admit, may set up cutthroat situations. Analyzing the successful experiments, they provide theory for political scientists to chew on and examples for government officials to consider--e.g., that of Visalia, which uses bonuses to reward groups of employees more often than individuals "on the theory that individual rewards encourage people to hoard information and compete with one another, while group rewards encourage people to share information and work together." Required reading for burned-out civic reformers, and stirring stuff for socially concerned businesspeople. -- Copyright ©1992, Kirkus Associates, LP. All rights reserved.

About the Author

**David Osborne**, managing partner of The Public Strategies Group, has served as an advisor to Vice President Al Gore, a consultant to America's public sector managers and a counselor to leaders worldwide. He lives in Essex, Massachusetts.

### Users Review

**From reader reviews:**

**Thelma Price:**
