## The Sacred Contract of America: Fulfilling the Vision of Our Mystic Founders By Caroline Myss

You might think there's no place for spirit in politics, but Caroline Myss reminds us that "our founders initiated a divine contract when they created this nation. One that honors the natural laws of the human spirit." On *The Sacred Contract of America*, she expounds on her idea that we are individually contracted to fulfill a destiny, and shows us how countries, too, possess agreements as part of our planet's evolution. With this groundbreaking new recording, she sends out an urgent call for us to reconnect with America's original vision of freedom and liberty, and invites us to explore: How your Sacred Contract is woven into that of our nation, and how this knowledge empowers you to be a conscious citizen; Why our Constitution is in serious jeopardy, and what each of us can do to save it; The twelve archetypes of America, including the Mystic, the Entrepreneur, and the Rebel; and the historical figures who represented them.

#### **From [AudioFile](#)**

When author and narrator Caroline Myss starts crying within the first five minutes of this audiobook, one realizes this isn't an ordinary production. Myss is impassioned and honest about her belief that America was founded by cosmic mystics whose enlightened ideals have been squandered by a misaligned political system and an "unconscious" populace. Part U.S. history text, part New Age manifesto, this is a program that's hard to take seriously, especially when Myss casually dismisses slavery and Native American genocide because they don't fit neatly into her cosmic vision of America. Even Myss's entertaining delivery can't salvage her chaotic attempt to apply her philosophy of a "sacred contract" to a nation. Her work is better suited to the self-help genre than the political genre. J.T. © AudioFile 2008, Portland, Maine-- *Copyright © AudioFile, Portland, Maine*
