By Noam Chomsky

9-11: Was There an Alternative? (Open Media Books) By Noam Chomsky

In 9-11, published in November 2001 and arguably the single most influential post 9-11 book, internationally renowned thinker Noam Chomsky bridged the information gap around the World Trade Center attacks, cutting through the tangle of political opportunism, expedient patriotism, and general conformity that choked off American discourse in the months immediately following. Chomsky placed the attacks in context, marshaling his deep and nuanced knowledge of American foreign policy to trace the history of American political aggression--in the Middle East and throughout Latin America as well as in Indonesia, in Afghanistan, in India and Pakistan--at the same time warning against America's increasing reliance on military rhetoric and violence in its response to the attacks, and making the critical point that the mainstream media and public intellectuals were failing to make: any escalation of violence as a response to violence will inevitably lead to further, and bloodier, attacks on innocents in America and around the world. This new edition of 9-11, published on the tenth anniversary of the attacks and featuring a new preface by Chomsky, reminds us that today, just as much as ten years ago, information and clarity remain our most valuable tools in the struggle to prevent future violence against the innocent, both at home and abroad.

Editorial Review

Review

- "9-11 was practically the only counter-narrative out there at a time when questions tended to be drowned out by a chorus, led by the entire United States Congress, of 'God Bless America.' . . . it is possible that, if the United States goes the way of nineteenth-century Britain, Chomsky's interpretation will be the standard among historians a hundred years from now." --New Yorker
- "A badly needed corrective to news coverage of the present-day 'war on terrorism.'" --Norman Solomon, San Francisco Chronicle Review
- "Every word of 9-11 is more relevant than ever." --Amnesty International Journal (Ireland)
- "Chomsky laments that the U.S. government largely dismissed these human rights problems in its quest to "secure our interests." The invasion of Afghanistan was far from the first time NATO overran unstable civilian populations in the search for terrorists (Chomsky offers several examples in the book) and, as we now know, it was not the last." --Foreign Policy in Focus

About the Author

Born in Philadelphia in 1928, **NOAM CHOMSKY** is known throughout the world for his political writings, activism, and for his groundbreaking work in linguistics. A professor at Massachusetts Institute of Technology since 1955, Chomsky gained recognition in academic circles for his theory of transformational grammar, which drew attention to the syntactic universality of all human languages. But it is as a critic of unending war, corporate control and neoliberalism that Chomsky has become one of the country's most well known public intellectuals. The 1969 publication of *American Power and the New Mandarins* marked the beginning of Chomsky's rigorous public criticism of American hegemony and its lieges. Since then, with his tireless scholarship and an unflagging sense of moral responsibility, he has become one of the most influential writers in the world. Chomsky is the author of *Manufacturing Consent: The Political Economy of the Mass Media* (with Edward S. Herman), *Profit Over People: Neoliberalism and Global Order*, and over one hundred other books. To this day Noam Chomsky remains an active and uncompromising voice of dissent.

Users Review

From reader reviews:

Alan Torrez:

What do you consider book? It is just for students because they are still students or the idea for all people in the world, the actual best subject for that? Merely you can be answered for that question above. Every person has several personality and hobby for each and every other. Don't to be compelled someone or something that they don't wish do that. You must know how great as well as important the book 9-11: Was There an Alternative? (Open Media Books). All type of book are you able to see on many options. You can look for the internet methods or other social media.

Crystal Freeman:

This particular book was inspired a lot of people in the world. When you read this guide you will enter the new way of measuring that you ever know before. The author explained their strategy in the simple way, thus all of people can easily understand the core of this publication. This book will give you a wide range of information about this world now. So that you can see the represented of the world within this book.

Mary Ponce:

The book 9-11: Was There an Alternative? (Open Media Books) has a lot of knowledge on it. So when you read this book you can get a lot of gain. The book was published by the very famous author. The author makes some research just before write this book. This specific book very easy to read you can get the point easily after reading this book.

Jeffrey Garner:

As a university student exactly feel bored to help reading. If their teacher requested them to go to the library as well as to make summary for some e-book, they are complained. Just minor students that has reading's heart or real their passion. They just do what the trainer want, like asked to the library. They go to presently there but nothing reading very seriously. Any students feel that reading is not important, boring as well as can't see colorful photographs on there. Yeah, it is being complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. So , this 9-11: Was There an Alternative? (Open Media Books) can make you feel more interested to read.
