Nuke 101: Professional Compositing and Visual Effects (2nd Edition) (Digital Video & Audio Editing Courses)

By Ron Ganbar

Nuke 101: Professional Compositing and Visual Effects (2nd Edition) (Digital Video & Audio Editing Courses) By Ron Ganbar

This start-to-finish, complete guide to Nuke will give you the foundations on the state-of-the-art visual effects software used by professionals in the film and television industries. Along with the hard-won advice and techniques from expert compositor and teacher Ron Ganbar, each chapter covers a complete lesson in the fundamentals, with step-by-step instructions included so you can easily follow along and start using the program right away. The projects used throughout the book are based on real-world examples of professional productions and project files are included with each chapter so you can work through all the examples.

After discovering how to use the tools and understanding the compositing workflow, you'll learn about basic and advanced compositing techniques, color correction, RotoPaint, keying, and tracking, as well as more advanced topics such as CGI and the 3D engine. In addition, you'll learn about:

• Working with nodes and process trees

• Using CGI passes in Nuke to control 3D render looks

• Camera Tracking techniques to combine 2D and 3D elements

• Camera Projection to turn a single frame into moving images

• Gizmos and all about creating your own tools in Nuke

• Stereoscopic compositing

 Ron Ganbar has been a compositor since 1996 and visual effects instructor since 2001. He currently works on a variety of projects as a gun for hire as compositor, consultant, VFX supervisor, and trainer. Ron was made a "Teacher's Trainer" by Apple for Shake in 2005 and has written, taught, and evaluated courses for the National Film and Television School, Apple, Peachpit Press, Westminster University, and others.

"As both a talented compositor (with years of in-the-trenches experience) and an excellent teacher, Ron Ganbar has the unique ability to make even the most difficult concepts crystal clear. If you want to get up and running with Nuke as quickly as possible then start by buying this book!" —Ron Brinkmann, author of The Art and Science of Digital Compositing

Users Review

From reader reviews:

Mary Tillman:

Reading a reserve tends to be new life style in this particular era globalization. With studying you can get a lot of information that may give you benefit in your life. Along with book everyone in this world could share their idea. Books can also inspire a lot of people. A lot of author can inspire all their reader with their story or perhaps their experience. Not only the story that share in the guides. But also they write about the knowledge about something that you need instance. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that you can get now. The authors on this planet always try to improve their expertise in writing, they also doing some analysis before they write to the book. One of them is this Nuke 101: Professional Compositing and Visual Effects (2nd Edition) (Digital Video & Audio Editing Courses).

Sandra Snyder:

Do you really one of the book lovers? If so, do you ever feeling doubt if you find yourself in the book store? Attempt to pick one book that you just dont know the inside because don't ascertain book by its include may doesn't work is difficult job because you are scared that the inside maybe not because fantastic as in the outside search likes. Maybe you answer is usually Nuke 101: Professional Compositing and Visual Effects (2nd Edition) (Digital Video & Audio Editing Courses) why because the fantastic cover that make you consider with regards to the content will not disappoint a person. The inside or content will be fantastic as the outside as well as cover. Your reading sixth sense will directly make suggestions to pick up this book.

Stephen Medley:

Reading a book for being new life style in this calendar year; every people loves to go through a book. When you go through a book you can get a large amount of benefit. When you read textbooks, you can improve your knowledge, due to the fact book has a lot of information on it. The information that you will get depend on what types of book that you have read. If you want to get information about your review, you can read education books, but if you act like you want to entertain yourself look for a fiction books, these kinds of us

novel, comics, in addition to soon. The Nuke 101: Professional Compositing and Visual Effects (2nd Edition) (Digital Video & Audio Editing Courses) offer you a new experience in examining a book.

Marlyn Melia:

Do you like reading a reserve? Confuse to looking for your favorite book? Or your book had been rare? Why so many question for the book? But almost any people feel that they enjoy to get reading. Some people likes reading, not only science book and also novel and Nuke 101: Professional Compositing and Visual Effects (2nd Edition) (Digital Video & Audio Editing Courses) or even others sources were given expertise for you. After you know how the great a book, you feel desire to read more and more. Science e-book was created for teacher as well as students especially. Those guides are helping them to include their knowledge. In additional case, beside science e-book, any other book likes Nuke 101: Professional Compositing and Visual Effects (2nd Edition) (Digital Video & Audio Editing Courses) to make your spare time a lot more colorful. Many types of book like this.
