### Srb's Manual of Surgery By Sriram Bhat

The fourth edition of SRB's Manual of Surgery brings trainee surgeons fully up to date with the latest procedures and techniques in general surgery. Each chapter examines both common and uncommon disorders that may occur in different parts of the body and the surgical procedures used to treat them. Malignancies are covered in greater detail in the new edition, discussing staging and current oncological trends. This 1336pp comprehensive manual includes 2200 full colour clinical photographs with detailed explanations, as well as boxes highlighting key physical signs to assist learning. The previous edition published in 2010. Key points

- \* 1350pp new edition bringing trainees up to date with latest procedures and techniques in general surgery
- \* Discusses common and less common conditions in all parts of the body
- \* Greater coverage of malignancies in the fourth edition
- \* 2200 full colour clinical photographs with explanations
- \* Includes key learning boxes highlighting physical signs
- \* Previous edition published in 2010

### **Editorial Review**

#### **About the Author**

Prakash Rao, CEA, is Vice President and Chief Architect with Metadata Management Corporation Ltd., and a faculty member with the FEAC Institute where he teaches enterprise architecture and the DoD Architecture Framework. He is co-chair of the Association of Open Group Enterprise Architects, Washington Metropolitan Area Chapter.

Beryl Bellman, Ph.D, is co-founder and Academic Director of the FEAC Institute and is a tenured Professor of Communication Studies at California State University at Los Angeles. He has consulted in enterprise architecture in the public sector and for the U.S. Departments of Defense, Agriculture, Forest Service, Energy, and Justice/INS, and the Executive Office of the President.

Ann Reedy is a Ph.D. in Computer Science with extensive experience in academia and in the contractor community. After working with analyst support systems and software development environments, she worked on the C4ISR Architecture Framework, the precursor to the DoD Architecture Framework (DoDAF). She has supported the adaptation of the DoD Architecture Framework for various federal organizations and agencies as well as supporting startup enterprise architecture developments based on the DoD Architecture Framework. She currently teaches for the Federated Enterprise Architecture Certification (FEAC) Institute and continues to work part-time for the MITRE Corporation.

### **Users Review**

#### **From reader reviews:**

##### **Jeremy Scott:**

As people who live in the actual modest era should be revise about what going on or details even knowledge to make them keep up with the era that is always change and progress.
