An Introduction to Gerontology From Cambridge University Press

With the world's population getting increasingly older, there has never been a more pressing need for the study of old age and ageing. *An Introduction to Gerontology* provides a wide-ranging introduction to this important topic. By assuming no prior expert knowledge and avoiding jargon, this book will guide students through all the main subjects in gerontology, covering both traditional areas, such as biological and social ageing, as well as more contemporary areas, such as technology, the arts, sexuality and education of older adults. *An Introduction to Gerontology* is written by a team of international authors with multidisciplinary backgrounds who draw evidence from a variety of different perspectives and traditions.

Editorial Review

Review

"Contributions from international experts on both traditional and contemporary topics - including biology, sociology, health and social care, retirement and sexuality - provide a broad introduction to the field."

--**Times Higher Education**

About the Author

Ian Stuart-Hamilton is Professor of Developmental Psychology and Faculty Head of Research and External Activity at the University of Glamorgan. He has been teaching lifespan psychology for over twenty-five years and has written six textbooks including *The Psychology of Ageing*, which was the winner of an award from the British Medical Association and shortlisted for the British Psychological Society's Book of the Year award.

Users Review

From reader reviews:

Robert Landers:
