Crop Production: Evolution, History, and Technology By C. Wayne Smith

This book deals with the agronomy of the eight major grain, fiber and oilseed row crops produced in the United States: Corn, Wheat, Grain Sorghum, Barley, Rice, Cotton, Soybeans, and Peanuts. For each crop, Dr. Smith presents a structured discussion of: the types of cultivars, the history of the crop, its uses and processing, a detailed discussion of how to plant and grow the crop, the pests and problems involved, and the harvesting, grading and marketing practices.

Editorial Review

From the Publisher

One of the nation's leading agronomists presents an outstanding resource that deals with the agronomy of the eight major grain, fiber and oilseed row crops produced in the U.S. Each crop listed includes a structured discussion of the types of cultivars: its history, uses and processing, how to plant and grow the crop, pests and other problems and the harvesting, grading and marketing processes.

Users Review
