### Explore Everything: Place-Hacking the City By Bradley Garrett

It is assumed that every inch of the world has been explored and charted; that there is nowhere new to go. But perhaps it is the everyday places around us—the cities we live in—that need to be rediscovered. What does it feel like to find the city's edge, to explore its forgotten tunnels and scale unfinished skyscrapers high above the metropolis? *Explore Everything* reclaims the city, recasting it as a place for endless adventure.

Plotting expeditions from London, Paris, Berlin, Detroit, Chicago, Las Vegas and Los Angeles, Bradley L. Garrett has evaded urban security in order to experience the city in ways beyond the boundaries of conventional life. He calls it 'place hacking': the recoding of closed, secret, hidden and forgotten urban space to make them realms of opportunity.

*Explore Everything* is an account of the author's escapades with the London Consolidation Crew, an urban exploration collective.

The book is also a manifesto, combining philosophy, politics and adventure, on our rights to the city and how to understand the twenty-first century metropolis.

### Editorial Review

#### From [Booklist](#)

\*Starred Review\* “Dr. Garrett?” asked the British police officer who boarded the plane as soon as it landed at Heathrow. The American-expat Oxford researcher was about to be arrested for his trespassing exploits. He meant no harm. Quite the opposite. Garrett and his fellow urban explorers celebrate forgotten places and protest limits on access. In this unique and electrifying travelogue, Garrett, a scholar with a background in anthropology and archeology, thoughtfully explicates their dangerous, exhilarating, and illegal explorations. We picture hackers as loners slouched anemically in the sickly light of a computer screen, but Garrett and his fellow travelers are as fit, agile, and fearless as ninja. Sharing an ethos with street artists, their mission is to “exploit fractures in the architecture of the city in an effort to find deeper meaning in the spaces we pass through every day.” Garrett recounts death-defying adventures in the UK, Europe, and the U.S. and shares his astonishingly dramatic photographs. Not only do place-hackers explore and document such urban ruins as abandoned factories, hospitals, and power stations; they also breach security systems to stand on the roofs of skyscrapers and tramp through sewer and subway systems. Each journey involves deep research, high risk, and profound intent. And wherever they go, they leave a sticker that reads, “Explore everything.” --Donna Seaman

#### A GUARDIAN BOOK OF THE YEAR

“Urban exploration is... a way of renegotiating reality, transforming the moment, turning the city into a video game. Except that, in this game, you only have one life.”—*Evening Standard*

“A unique and electrifying travelogue ... Garrett and his fellow travelers are as fit, agile and fearless as ninja.”—*Booklist*, Starred Review

“For Garrett, physical exploration is merely the outward manifestation of a deeper philosophical inquiry. The theoretical DNA of much of his work traces back to the concept of 'psychogeography.'”—*GQ*

“An absorbing read ... Recommended for travel and modern history readers.”—*Library Journal*
