Editorial Review

Review

Anyone looking for a lively, impassioned, and knowledgeable survey of the early texts that helped shape and define . . . science fiction would be well served by seeking out Paul Alkon's informative volume *Science Fiction Before 1900: Imagination Discovers Technology*. . . Alkon is authoritative and passionate; clearly a lifelong love for SF has guided his research; that love, his excitement at unravelling the evolutive thread of SF's various tropes and shared ideas, and his deep and broad appreciation for the visionary writers who created the most influential early SF texts all combine to create an infectiously enthralling historical narrative. . . The bulk of the book is a cornucopia of SF history, painstakingly researched and vividly and lovingly brought to life - a thrilling and exciting read for those wanting to explore SF's origins.

—**Claude Lalumière, Locus Magazine, June, 28**

About the Author

Paul K. Alkon is Leo S. Bing Professor of English at the University of Southern California. His work *Origins of Futuristic Fiction* was the recipient of the Eaton Award for the year's best critical work on science fiction.

Users Review

From reader reviews:

Deanna Ratliff:

In this 21st hundred years, people become competitive in each and every way. By being competitive right now, people have do something to make these people survives, being in the middle of the particular crowded place and notice by means of surrounding.
