Starting Out with C++ From Control Structures through Objects, Student Value Edition (8th Edition) By Tony Gaddis

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. PackagesAccess codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental booksIf you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codesAccess codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase.

"This text is intended for either a one-semester accelerated introductory course or a traditional two-semester sequence covering C++ programming. It is also suitable for readers interested in a comprehensive introduction to C++ programming." Tony Gaddis's accessible, step-by-step presentation helps beginning students understand the important details necessary to become skilled programmers at an introductory level. Gaddis motivates the study of both programming skills and the C++ programming language by presenting all the details needed to understand the "how" and the "why"--but never losing sight of the fact that most beginners struggle with this material. His approach is both gradual and highly accessible, ensuring that students understand the logic behind developing high-quality programs. In "Starting Out with C++: From Control Structures through Objects, "Gaddis covers control structures, functions, arrays, and pointers before objects and classes. As with all Gaddis texts, clear and easy-to-read code listings, concise and practical real-world examples, and an abundance of exercises appear in every chapter. MyProgrammingLab for "Starting Out with C++" is a total learning package. MyProgrammingLab is an online homework, tutorial, and assessment program that truly engages students in learning. It helps students better prepare for class, quizzes, and exams-resulting in better performance in the course-and provides educators a dynamic set of tools

for gauging individual and class progress. Teaching and Learning ExperienceThis program presents a better teaching and learning experience--for you and your students. It will help: Personalize Learning with MyProgrammingLab: Through the power of practice and immediate personalized feedback, MyProgrammingLab helps students fully grasp the logic, semantics, and syntax of programming.Enhance Learning with the Gaddis Approach: Gaddis's accessible approach features clear and easy-to-read code listings, concise real-world examples, and exercises in every chapter. Keep Your Course Current: This edition introduces many of the new C++11 language features.Support Instructors and Students: Student and instructor resources are available to expand on the topics presented in the text. Note: "Starting Out with C++ from Control Structures to Objects with MyProgrammingLab Access Card Package, 8/e "contains: ISBN-10: 0133769399/ISBN-13: 9780133769395 "Starting Out with C++ from Control Structures to Objects"," 8/e"ISBN-10: 0133780619/ISBN-13: 9780133780611 "MyProgrammingLab with Pearson eText -- Access Card -- for """Starting Out with C++ from Control Structures to Objects," 8/e"

MyProgrammingLab is not a self-paced technology and should only be purchased when required by an instructor.
