Editorial Review

Review

Arthur Asa Berger's choice of 50 prominent thinkers about communication is an intellectual journey from Aristotle to McLuhan with stops along the way at such road posts as Freud, Jung, and many of today's eminent communication scholars. Berger has selected a key writing from each and includes his own analysis and perspective of their work. The book includes exercises for students and is a clear requisite for any introductory course on communication. (A. Michael Noll, Annenberg School for Communication and Journalism at the University of Southern California)

I have been waiting for a book like this for eight to ten years! Finally, a text that is accessible to undergraduates who are new to the emerging discipline of culture and communication and yet honors the complexity of that discipline's roots, central questions, and broad reach. (Marie Garland, Ithaca College)

Communication theory is an ideal subject for Arthur Asa Berger, because?as any reader will soon discover?he is a genius at communicating complex ideas simply, directly, and with a unique sense of humor. (Howard Rheingold, author of Smart Mobs)
