An Artificial Intelligence Approach to Legal Reasoning (Artificial Intelligence and Legal Reasoning)

By Anne von der Lieth Gardner

An Artificial Intelligence Approach to Legal Reasoning (Artificial Intelligence and Legal Reasoning) By Anne von der Lieth Gardner

Law and legal reasoning are a natural target for artificial intelligence systems. Like medical diagnosis and other tasks for expert systems, legal analysis is a matter of interpreting data in terms of higher-level concepts. But in law the data are more like those for a system aimed at understanding natural language: they tell a story about human events that may lead to a lawsuit. Statements of the law, too, are written in natural language and legal arguments are often arguments about what that language means or ought to mean.

This study is one of the few research efforts in this fertile area. It is unique in developing a computational model for analyzing legal problems in a way that brings these strands of AI research together and makes sense from a jurisprudential perspective as well.

Gardner first analyzes several positions in Anglo-American jurisprudence and their relevance for work in artificial intelligence. She identifies aspects of legal reasoning that any truly expert system in law must make a place for and suggests a way of decomposing the process of legal analysis that takes these aspects into account. She compares the resulting framework with those used by other legal analysis programs. A solid exposition of current AI techniques follows in chapters covering the author's system (written in Maclisp) for offer and acceptance problems, taken from law examinations, involved in contract law.

Anne von der Lieth Gardner has a law degree and a Ph.D. in computer science, both from Stanford University. *An Artificial Intelligence Approach to Legal Reasoning* inaugurates the series Artificial Intelligence and the Law: Processes and Models of Legal Reasoning, edited by L. Thorne McCarty and Edwina L. Rissland. A Bradford Book.

Users Review

From reader reviews:

Tracy Painter:

Do you have favorite book? For those who have, what is your favorite's book? Guide is very important thing for us to know everything in the world. Each e-book has different aim or goal; it means that guide has different type. Some people truly feel enjoy to spend their time for you to read a book. They are really reading whatever they acquire because their hobby is actually reading a book. How about the person who don't like examining a book? Sometime, man or woman feel need book once they found difficult problem as well as exercise. Well, probably you'll have this An Artificial Intelligence Approach to Legal Reasoning (Artificial Intelligence and Legal Reasoning).

Pam Boyd:

In this 21st millennium, people become competitive in each way. By being competitive right now, people have do something to make all of them survives, being in the middle of the crowded place and notice by means of surrounding. One thing that sometimes many people have underestimated the item for a while is reading. Yeah, by reading a e-book your ability to survive boost then having chance to stand up than other is high. To suit your needs who want to start reading any book, we give you this specific An Artificial Intelligence Approach to Legal Reasoning (Artificial Intelligence and Legal Reasoning) book as beginner and daily reading e-book. Why, because this book is greater than just a book.

Joshua Castillo:

The book untitled An Artificial Intelligence Approach to Legal Reasoning (Artificial Intelligence and Legal Reasoning) contain a lot of information on it. The writer explains the woman idea with easy way. The language is very straightforward all the people, so do definitely not worry, you can easy to read the idea. The book was authored by famous author. The author will bring you in the new period of literary works. It is possible to read this book because you can continue reading your smart phone, or program, so you can read the book with anywhere and anytime. If you want to buy the e-book, you can open up their official web-site as well as order it. Have a nice learn.

Henry Taylor:

Don't be worry for anyone who is afraid that this book can filled the space in your house, you may have it in e-book method, more simple and reachable. This An Artificial Intelligence Approach to Legal Reasoning (Artificial Intelligence and Legal Reasoning) can give you a lot of close friends because by you looking at

this one book you have matter that they don't and make a person more like an interesting person. This kind of book can be one of one step for you to get success. This guide offer you information that perhaps your friend doesn't realize, by knowing more than some other make you to be great people. So , why hesitate? We need to have An Artificial Intelligence Approach to Legal Reasoning (Artificial Intelligence and Legal Reasoning).
