Beginning HTML with CSS and XHTML: Modern Guide and Reference (Beginning: from Novice to Professional) By Craig Cook, David Schultz

Why another HTML book? Web development has changed with the advent of web standards, rendering older books obsolete. The code and techniques in this book are strictly standards compliant, so readers' web pages will work properly in most web browsers, be lean and small in file size, accessible to web users with disabilities, and easily located by search engines such as Google. The book uses practical examples to show how to structure data correctly using (X)HTML, the basics of styling it and laying it out using Cascading Style Sheets (CSS,) and adding dynamic behavior to it using JavaScript – all as quickly as possible.

Editorial Review

Review

From the reviews:

"After reading this book, an average reader should be able to create a reasonably attractive Web page The book explains the creation of Web pages using Hypertext Markup Language (HTML), Extensible Hypertext Markup Language (XHTML), cascading style sheets (CSS), and JavaScript. The book is concise and easy to read Overall, I liked this book, and feel that it could be used in a general survey class on Web design and programming." (J. Miller, ACM Computing Reviews, October, 2008)

Users Review

From reader reviews:

Roberta Bourland:

The book Beginning HTML with CSS and XHTML: Modern Guide and Reference (Beginning: from Novice to Professional) give you a sense of feeling enjoy for your spare time. You need to use to make your capable a lot more increase. Book can being your best friend when you getting stress or having big problem with your subject. If you can make looking at a book Beginning HTML with CSS and XHTML: Modern Guide and Reference (Beginning: from Novice to Professional) to become your habit, you can get more advantages, like add your own capable, increase your knowledge about a few or all subjects. You could know everything if you like start and read a reserve Beginning HTML with CSS and XHTML: Modern Guide and Reference (Beginning: from Novice to Professional). Kinds of book are a lot of. It means that, science reserve or encyclopedia or some others. So , how do you think about this reserve?

James Edgar:

Reading a guide tends to be new life style in this particular era globalization. With examining you can get a lot of information that will give you benefit in your life. With book everyone in this world could share their idea. Textbooks can also inspire a lot of people. A great deal of author can inspire their very own reader with their story or their experience. Not only the storyline that share in the guides. But also they write about the data about something that you need illustration. How to get the good score toefl, or how to teach children, there are many kinds of book which exist now. The authors on earth always try to improve their skill in writing, they also doing some exploration before they write to their book. One of them is this Beginning HTML with CSS and XHTML: Modern Guide and Reference (Beginning: from Novice to Professional).

Kristen Blasingame:

This Beginning HTML with CSS and XHTML: Modern Guide and Reference (Beginning: from Novice to Professional) is great publication for you because the content which can be full of information for you who have always deal with world and still have to make decision every minute. This particular book reveal it facts accurately using great manage word or we can point out no rambling sentences in it. So if you are read it hurriedly you can have whole facts in it. Doesn't mean it only will give you straight forward sentences but challenging core information with beautiful delivering sentences. Having Beginning HTML with CSS and XHTML: Modern Guide and Reference (Beginning: from Novice to Professional) in your hand like obtaining the world in your arm, details in it is not ridiculous a single. We can say that no publication that offer you world within ten or fifteen minute right but this reserve already do that. So , this really is good reading book. Hello Mr. and Mrs. hectic do you still doubt that?

Donald Burgess:

Within this era which is the greater particular person or who has ability to do something more are more treasured than other. Do you want to become among it? It is just simple way to have that. What you need to do is just spending your time little but quite enough to possess a look at some books. One of the books in the top record in your reading list is Beginning HTML with CSS and XHTML: Modern Guide and Reference (Beginning: from Novice to Professional). This book which is qualified as The Hungry Hillsides can get you closer in becoming precious person. By looking up and review this guide you can get many advantages.
