**Engineering Physics** By Dipak Chandra Ghosh, Nripesh Chandra Ghosh, Prabir Kumar Haldar

The book Engineering Physics has been lucidly presented for the regular use of both students and teachers of physics. The book is a single volume text covering practically all the topics in the syllabi of engineering physics for graduate level students of all Indian universities of Technology and IITs. This book will also be of great help to undergraduate students of physics. Salient features of the book are as follows: This book provides in-focus section, solved problems and examples and it also contains a large number of thought provoking MCQs. Typical questions, hints, meaningful exercises are there at the end of each chapter. The book has several sets of model questions for each semester. The chapters and examples have been so presented that the students can prepare for the examinations with their help. The whole text, a rare combination of clarity and brevity, along with the appendices and bibliography has been planned in a special way to encourage the students for further study in the subject.
