Geopolitics: A Very Short Introduction (Very Short Introductions) By Klaus Dodds

In places such as Iraq, Lebanon, and Israel, moving a few feet in a territorial boundary can be a matter of life or death, dramatically highlighting the connections between place and politics. Even far away from these "danger zones" - in Europe or the US for example - geopolitics remains an important part of everyday life. A country's location and size as well as its sovereignty and resources all affect how the people that live there understand and interact with the wider world. In this new edition, Klaus Dodds takes into account several world developments that have occurred since original publication, including the Arab Spring, the worldwide economic crisis, and the developing role of China in international politics.

Using wide-ranging examples, from historical maps to James Bond films and the rhetoric of political leaders both past and present, this *Very Short Introduction* shows why- for a full understanding of contemporary global politics- it necessary to be geopolitical.

ABOUT THE SERIES: The *Very Short Introductions* series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Editorial Review

Review

Dodds has produced an interesting, wide-ranging and insightful book that packs an intellectual punch into a short space... as a primer for new students interested in geopolitics, or those wanting to explore different, less conventional, sides of geopolitical analysis, it comes highly recommended. *Journal of Contemporary European Studies*, Edward Stoddard

About the Author

Klaus Dodds is Professor of Geopolitics at Royal Holloway University of London. Since publication of *Geopolitics VSI*, he has co-edited three books, *Spaces of Security and Insecurity* (2009), *Observant States: Geopolitics and Visual Culture* (2010), and *The Ashgate Handbook on Critical Geopolitics* (2012). He has also written *The Antarctic: A Very Short Introduction*.

Users Review
