North America: The Historical Geography of a Changing Continent By Thomas F. McIlwraith, Edward K. Muller

This classic text retains the superb scholarship of the first edition in a thoroughly revised and accessibly written new edition. With both new and updated essays by distinguished American and Canadian authors, the book provides a comprehensive historical overview of the formation and growth of North American regions from European exploration and colonization to the second half of the twentieth century. Collectively the contributors explore the key themes of acquisition of geographical knowledge, cultural transfer and acculturation, frontier expansion, spatial organization of society, resource exploitation, regional and national integration, and landscape change. With six new chapters, redrawn maps, a new introduction that explores scholarly trends in historical geography since publication of the first edition, and a new final chapter guiding students to the basic sources for historical geographic enquiry, *North America* will be an indispensable text in historical geography courses.

Users Review

From reader reviews:

Danny Whittemore:

What do you about book? It is not important together with you? Or just adding material when you really need something to explain what the one you have problem? How about your spare time? Or are you busy man? If you don't have spare time to complete others business, it is gives you the sense of being bored faster. And you have free time? What did you do? All people has many questions above. The doctor has to answer that question because just their can do this. It said that about reserve. Book is familiar on every person. Yes, it is appropriate. Because start from on pre-school until university need that North America: The Historical Geography of a Changing Continent to read.

Donald Dickens:

Reading a publication tends to be new life style with this era globalization. With reading through you can get a lot of information that could give you benefit in your life. Together with book everyone in this world can certainly share their idea. Textbooks can also inspire a lot of people. A great deal of author can inspire all their reader with their story or perhaps their experience. Not only the story that share in the guides. But also they write about the information about something that you need example. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that you can get now. The authors nowadays always try to improve their expertise in writing, they also doing some analysis before they write for their book. One of them is this North America: The Historical Geography of a Changing Continent.

Richard King:

In this particular era which is the greater man or who has ability to do something more are more important than other. Do you want to become one among it? It is just simple strategy to have that. What you need to do is just spending your time very little but quite enough to get a look at some books. One of the books in the top collection in your reading list is actually North America: The Historical Geography of a Changing Continent. This book that is qualified as The Hungry Inclines can get you closer in getting precious person.

By looking way up and review this publication you can get many advantages.

Brandon Gentry:

That reserve can make you to feel relax. This kind of book North America: The Historical Geography of a Changing Continent was colourful and of course has pictures on there. As we know that book North America: The Historical Geography of a Changing Continent has many kinds or variety. Start from kids until teens. For example Naruto or Investigator Conan you can read and believe you are the character on there. So , not at all of book are generally make you bored, any it can make you feel happy, fun and chill out. Try to choose the best book to suit your needs and try to like reading which.
