**Snow** By Tracy Lynn

Snow White, Rose Red

In a tiny Welsh estate, a duke and duchess lived happily, lacking only a child -- or, more importantly, a son and heir to the estate. Childbirth ultimately proved fatal for the young duchess. After she died, the duke was dismayed to discover that he was not only a widower, but also father to a tiny baby girl. He vowed to begin afresh with a new wife, abandoning his daughter in search of elusive contentment.

Independent -- virtually ignored -- and finding only little animals and a lonely servant boy as her companions, Jessica is pale, lonely and headstrong...and quick to learn that she has an enemy in her stepmother. "Snow," as she comes to be known, flees the estate to London and finds herself embraced by a band of urban outcasts. But her stepmother isn't finished with her, and if Jessica doesn't take control of her destiny, the wicked witch will certainly harness her youth -- and threaten her very life....

### Editorial Review

From School Library Journal

Grade 8 Up—"Once upon a time," a child was born to a duke and duchess in a remote corner of Wales- but the wife died giving birth, and the duke, in his grief, refused to have anything to do with the child. So begins this Victorian psychological thriller based loosely on "Snow White." When Jessica is about to enter adolescence, her father marries a vain, brilliant woman who longs to be taken seriously as a scientist. Her "experiments" combine medieval superstitions and modern scientific equipment to help her bear a male heir for the duke and are juxtaposed with sessions before a mirror held up for her by a literally spellbound servant/musician. When her stepdaughter's emerging beauty drives the duchess to murderous plans, the musician warns Jessica to escape, but only after her jealous stepmother has kept her a virtual prisoner for several years, rendering her complexion pale enough to earn her new name, Snow. The naive girl flees to London, where she immediately loses her purse in the confusion of Paddington Station and, wandering the streets, stumbles into the den of an unlikely band called "the lonely ones." No, there aren't seven of them-only five-but the many parallels to the folktale are imaginative and inventive. Like Donna Jo Napoli in her novelistic retellings of old tales, Lynn delves deeply into the psychological underpinnings of the folktale while maintaining a fast-paced plot with ingenious twists and turns that will keep readers as spellbound as some of the characters.

### Users Review

**From reader reviews:**

**Erin Chretien:**

The book Snow give you a sense of feeling enjoy for your spare time. You should use to make your capable considerably more increase. Book can to become your best friend when you getting strain or having big problem with the subject. If you can make looking at a book Snow for being your habit, you can get much more advantages, like add your capable, increase your knowledge about several or all subjects. You can know everything if you like open up and read a e-book Snow. Kinds of book are several. It means that, science e-book or encyclopedia or other people. So , how do you think about this publication?

**Marguerite Boutte:**

Nowadays reading books become more and more than want or need but also get a life style. This reading practice give you lot of advantages. The benefits you got of course the knowledge the particular information inside the book this improve your knowledge and information. The info you get based on what kind of publication you read, if you want attract knowledge just go with education and learning books but if you want really feel happy read one using theme for entertaining such as comic or novel. The actual Snow is kind of reserve which is giving the reader unforeseen experience.

**James Donofrio:**

This Snow are generally reliable for you who want to certainly be a successful person, why. The explanation of this Snow can be among the great books you must have is giving you more than just simple examining food but feed you with information that might be will shock your preceding knowledge. This book is definitely handy, you can bring it everywhere and whenever your conditions at e-book and printed types. Beside that this Snow forcing you to have an enormous of experience for example rich vocabulary, giving you trial of critical thinking that we all know it useful in your day activity. So , let's have it appreciate reading.

**Stephen Beatty:**

In this time globalization it is important to someone to obtain information. The information will make anyone to understand the condition of the world. The healthiness of the world makes the information much easier to share. You can find a lot of referrals to get information example: internet, classifieds, book, and soon. You will observe that now, a lot of publisher this print many kinds of book. Often the book that recommended to you personally is Snow this book consist a lot of the information from the condition of this world now. This kind of book was represented just how can the world has grown up. The words styles that writer use for explain it is easy to understand. The actual writer made some analysis when he makes this book. Honestly, that is why this book acceptable all of you.
