**Tutorials in Paediatric Differential Diagnosis, 2e** By David J. Field MBBS(Hons) DCH FRCPCH FRCP(Ed) DM, John Stroobant FRCP FRCPCH, David Isaacs MB BChir MD MRCP FRACP

This practical handbook uses a symptom-based approach to paediatric differential diagnosis. For each symptom, the book describes its epidemiology, the physiological principles underlying the symptom, history, examination, and investigation, and features a summary management box and a case study. The 2nd Edition features a much more extensive collection of symptoms?nearly twice as many as the first edition. It also discusses the community aspects of paediatric conditions. A new 2-color format and many new illustrations enhance the text.

- Uses a symptom-based approach to diagnosing paediatric conditions, mirroring the medical school curriculum and postgraduate examinations.
- Approaches diagnosis step by step, reviewing epidemiology, the underlying physiology, history, examination, and investigation.
- Includes a summary management box and a case study for each topic.
- Covers many new symptoms?nearly 50% more than the previous edition.
- Provides expert commentary on specialist topics.
- Features a new, two-color layout and many new illustrations.
- Highlights the community aspects of paediatric diseases.

With 5 additional contributing experts.

## **Editorial Review**

### **Review**

It covers a lot of ground: being symptoms based, chapter titles range from the vague...to the more specific. What I like is that at the end of each chapter there is a real-life clinical case which is posed as a PBL-like scenario with questions and discussions. It gives you a chance to go through the process of coming up with the possible differentials and you can check if you're right. It contains a lot of information...it is worth a read. *Medical Student, MAD Magazine, official journal of Barts and The London Students' Association*

### **About the Author**

David J. Field, MBBS (Hons), DCH, FRCPCH, FRCP (Ed), DM, Professor of Neonatal Medicine, University of Leicester, Leicester Royal Infirmary, Leicester, UK; David Isaacs, MB, BChir, MD, MRCP, FRACP, Department of Immunology and Infectious Diseases, The New Children's Hospital, Royal Alexandria Hospital for Children, Australia; and John Stroobant, FRCP, FRCPCH, Consultant Paediatrician and Honorary Senior Lecturer, University Hospital of Lewisham, London, UK

## **Users Review**

### **From reader reviews:**

#### **Wendell Nadeau:**
